

## **Ad hoc announcement pursuant to Art. 53 LR**

Zurich, July 4, 2022

## **Focus on proactive "buy-and-sell" portfolio management**

### **Capital increase not being implemented at present**

The Board of Directors of Edisun Power Europe Ltd. has decided not to implement the planned capital increase at present. This decision is linked to the recently adjusted strategy of proactive "buy-and-sell" portfolio management and the progress in its implementation. The Board of Directors believes that in the current environment – particularly also in view of the energy policy situation in Europe – an inflow of funds via project sales is considerably more attractive. The assessment of the situation by the Board of Directors concerning both the need for and scope of a capital increase in the second half of the year will be based on the progress of implementation of the new business model achieved by then.
